OBJECTIVE

The project entails the development of a quiz website using HTML, CSS, and JavaScript. The primary objective is to create an interactive platform where users can participate in various quizzes on different topics, enhancing their knowledge and engagement.

Purpose Of Creating The Quiz Website.

One of the primary purposes of developing the quiz website is to facilitate learning and knowledge acquisition in an interactive and enjoyable manner. By offering quizzes on various topics and subjects, the website aims to stimulate intellectual curiosity, promote self-directed learning, and reinforce understanding of key concepts.

Beyond its educational benefits, the quiz website also aims to provide entertainment value to users. Quizzes are designed to be engaging and fun, offering users an entertaining diversion while simultaneously imparting knowledge and encouraging participation.

The quiz website serves as a tool for users to enhance their cognitive skills, critical thinking abilities, and problem-solving capabilities.

ABOUT OUR PROJECT

Our project involves creating a quiz website using HTML, CSS, and JavaScript. The goal is to develop an interactive platform where users can participate in quizzes on various topics. Through this website, we aim to provide an engaging and educational experience, encouraging users to learn while having fun.

OUR MISSION

- Our goal is to make learning feel like a fun game that anyone can enjoy. We hope to encourage curiosity, help people think more, and make learning a part of everyday life.
- Our aim is to create a friendly online community where everyone can come together to learn and have fun.

OVERVIEW

We have created the 13 page website with the following structure :
-Home Page
-About Us Page
-Contact us Page
-Courses Page
The course page consist of 9 courses' quiz:
-CSS File
-Javascript File

COURSE REVIEW

The teacher's knowledge and the way she teaches the web development course is excellent. I found the course content and structure very helpful in improving my skills.
